

Learn how we're improving the grid

Cricket Valley Energy (CVE) is bringing its team of experts to a location near you to discuss plans to upgrade transmission capacity, redundancy, and operational capabilities in the existing Con Edison right-of-way between the Town of Dover and the Con Edison substation in the Town of Pleasant Valley.

Join us for a public information meeting at:

Union Vale Town Hall

Thursday, May 15, 2014, 7:30 p.m.
249 Duncan Road, Lagrangeville, NY

Dover Town Hall

Wednesday, May 28, 2014, 6:30 p.m.
126 E. Duncan Hill Road, Dover Plains, NY

Pleasant Valley Town Hall

Monday, June 2, 2014, 7:00 p.m.
1554 Main Street, Pleasant Valley, NY

LaGrange Town Hall

Wednesday, June 18, 2014, 7:00 p.m.
120 Stringham Road, Lagrangeville, NY

This project is not part of any of the following transmission line projects: NY Transco Edic to Pleasant Valley; NEXTERA New Scotland to Pleasant Valley; North American Transmission; or Boundless Energy Transmission.

Cricket Valley Energy's proposed facility in Dover, NY, promotes a highly efficient, environmentally-responsible process of converting clean-burning North American natural gas into electricity. That's power for nearly one million homes—and economic benefits for the community.
